

Mercury Predictive Dialer

Mercury Predictive Dialer The Mercury Predictive Dialer is the integrated, real-time, on-line predictive dialing system that works seamlessly with CRS to create a fully integrated and automated collections software package. Unlike traditional predictive dialers, the MPD is completely integrated with our collection software. The Mercury Predictive Dialer provides real-time reporting that gives our staff the ability to optimize contact with our clients' patients and debtors. We can change campaign parameters on the fly to maximize collector productivity.
